ABOUT ME

Third-year Computer Science (Graphics and Multimedia Software) student at Universiti Teknologi Malaysia (UTM) seeking a six-month internship to gain practical industry experience and further develop technical and professional skills.

PROJECTS

- Augmented Reality (AR) Tracking Web-Based System Mar 2026
- Developed an AR tracking system using JavaScript, intentionally avoiding external libraries to optimize performance and understanding of computer vision principles.
 - Implemented marker-detection logic and validated tracking accuracy across varying lighting conditions.
- Kelab Fotokreatif UTM (KFK) Website Nov 2025 – Jan 2026
- Developed the website and ensured UI consistency.
- Smash The Button Game Jun 2025
- Developed a logic-based game using pure C++, focusing on state handling.
 - Debugged core game loops manually to ensure accurate flow and zero-latency input response.

SKILLS

- Technical skills: Java, C++, Python, HTML, CSS, JavaScript, OOP, OpenGL
- Tools: Visual Studio, GitHub
- Soft skills: teamwork, communication, problem-solving

CERTIFICATIONS / ACHIEVEMENTS

- Human Computer Interaction Day Session 2024/2025 Project Competition – Gold Award (Smart Wallet)
- CGI Workshop Character Rigging and Animation
- Graphics Design Essential (Canva)

ACTIVITY / LEADERSHIP

- Vice President of UTM Mandarin Club Mar 2025 – Jan 2026
- Conducted informal usability testing on the club website, identifying 5+ navigation bottlenecks and implementing fixes that improved user engagement.
 - Promoted club activities to attract new members and increase student participation.
 - Increased Instagram followers by 20% through consistent content.
 - Collaborated with committee members to plan and promote club events.

EDUCATION

Bachelor of Computer Science (Graphics and Multimedia Software) with Honours
Universiti Teknologi Malaysia (UTM)

- CGPA: 4.00

Oct 2023 – NOW

Physical Science
Kolej Matrikulasi Pahang (KMPh)

- CGPA: 4.00

Aug 2022 – May 2023
